**TIP!**

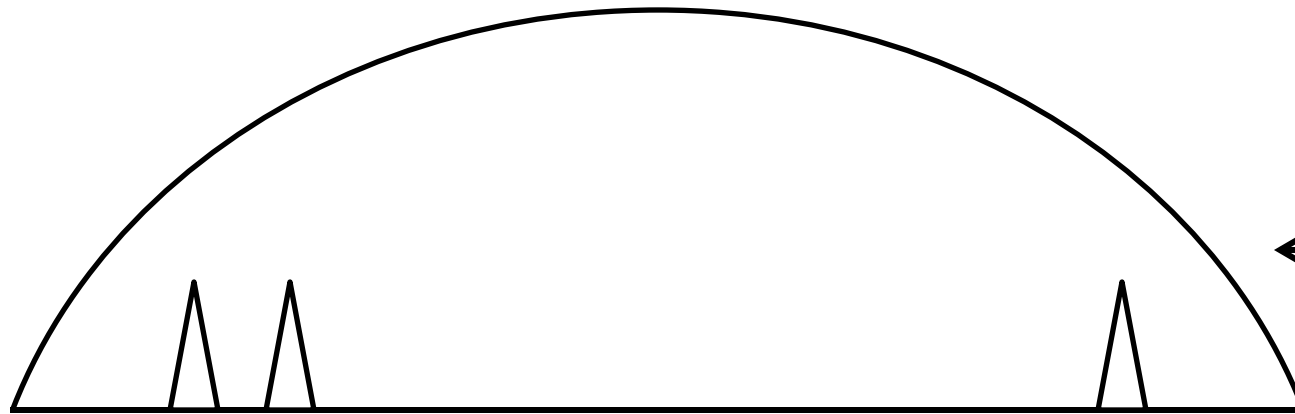

The ears will not fit in the helmet, so I just cut them off. Also, on the boy's hair on the example, I just cut a wisp freehand.

### Helmet

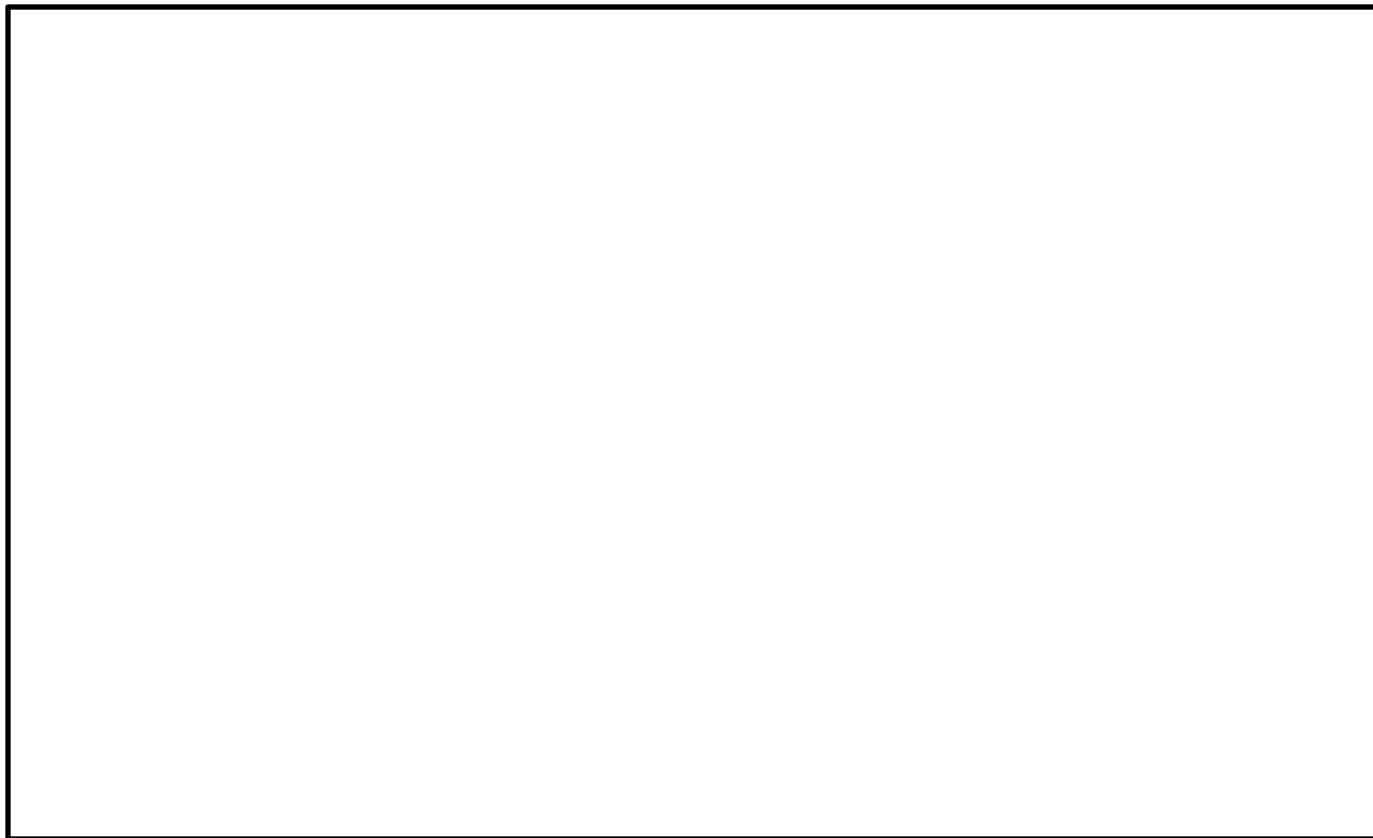

Cut 1 from white and use clear plastic for the shield.

**TIP!**  
After I cut this out I run it through the laminator to make a "shield" for the helmet.

### Bangs

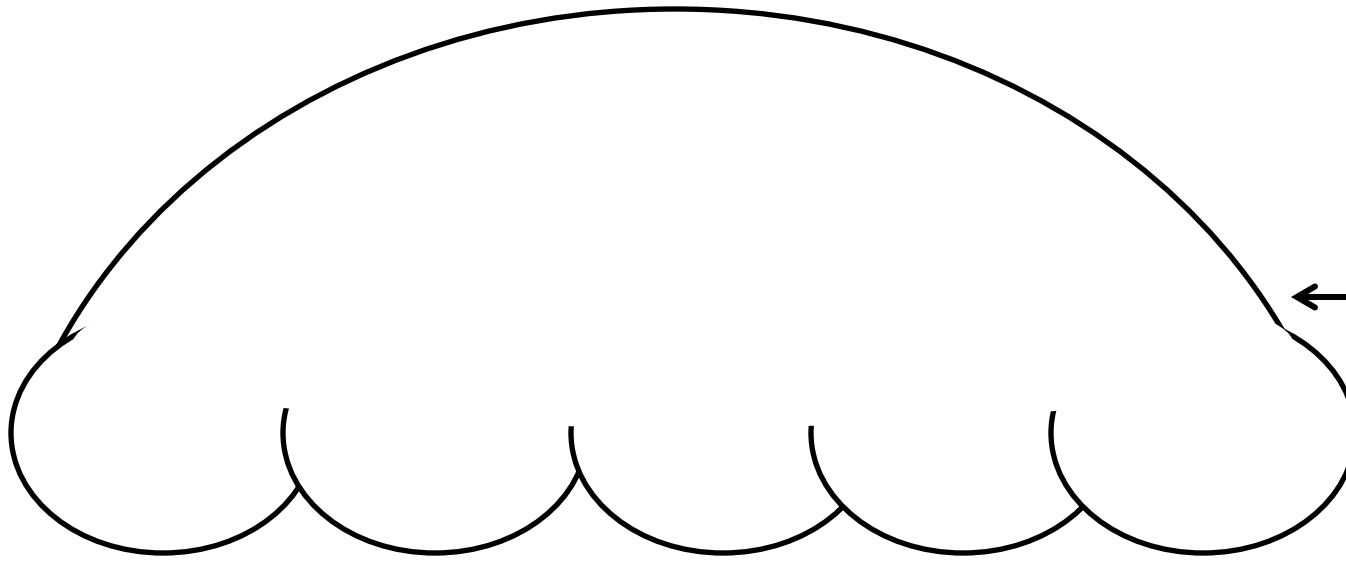

Cut 1 out of preferred hair color paper. For the boys, this is all I use for the hair.

### Short Hair

Cut one of these and past it to the back of the head right behind the ears. Use a color that matches the bangs.

### Bangs

This is a variation.  
Cut it out of  
preferred hair  
color paper.

### Short Hair

Cut one of these  
and past it to the  
back of the head  
right behind the  
ears. Use a color  
that matches the  
bangs.

## Long Hair

Cut one of these and past it to the back of the head right behind the ears. Use a color that matches the bangs. You can also cut strips at the bottom and curl it around a pencil.

# Writing Topic Suggestions

You've just met an alien from another planet. Use descriptive writing to tell them about your planet.

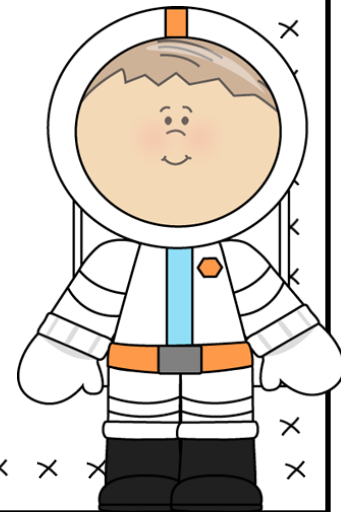

Write a "how to" about getting ready to fly in space.

If I were an astronaut...

Create a list of reasons why you would like to live on another planet.

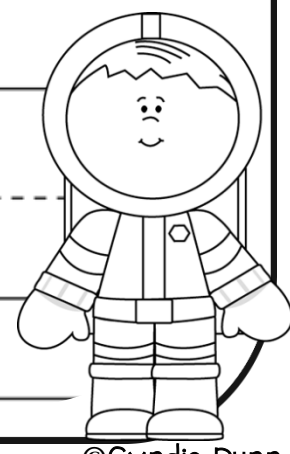

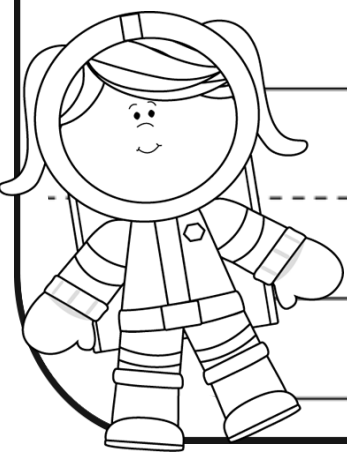

Write a story persuading your best friend to live in outer space with you.

Use your 5 senses to describe life in space.

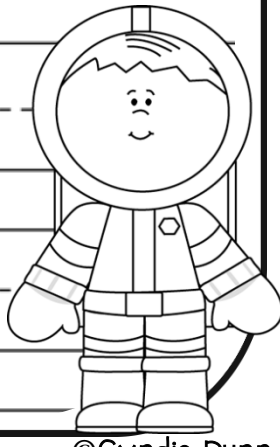

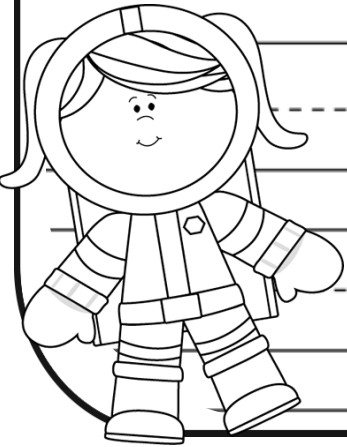

Name \_\_\_\_\_

Handwriting practice lines consisting of four sets of horizontal lines. Each set includes a solid top line, a dashed middle line, and a solid bottom line.
