

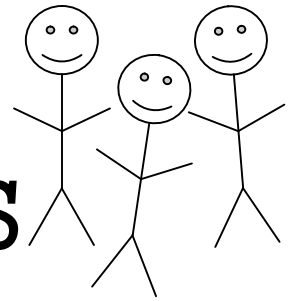

Graphing Brothers and Sisters

1. Write the names of your brothers and sisters. Do your best on spelling their names. If you don't have any siblings, write **none**.

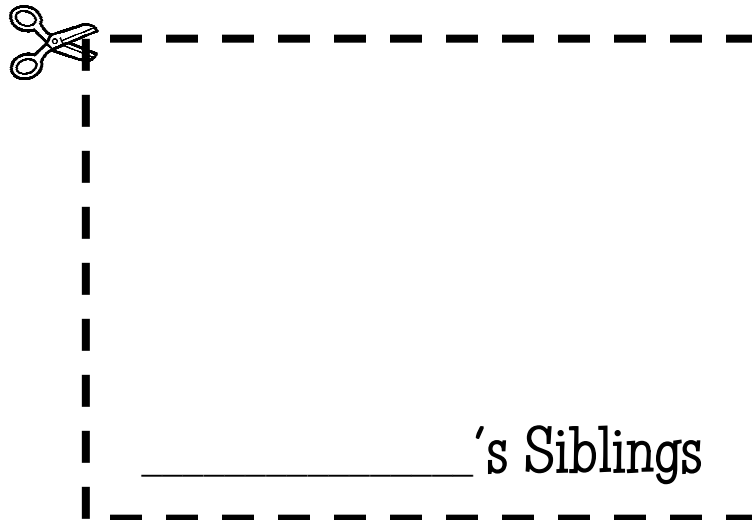

2. Count all of the names you wrote. How many siblings (brothers and sisters) do you have?

I have _____ siblings.

3. Draw a picture of your siblings in the square below. If you don't have any siblings, write **NONE** in the square. Write your name on the line in the square.

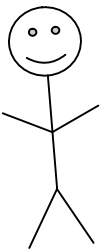

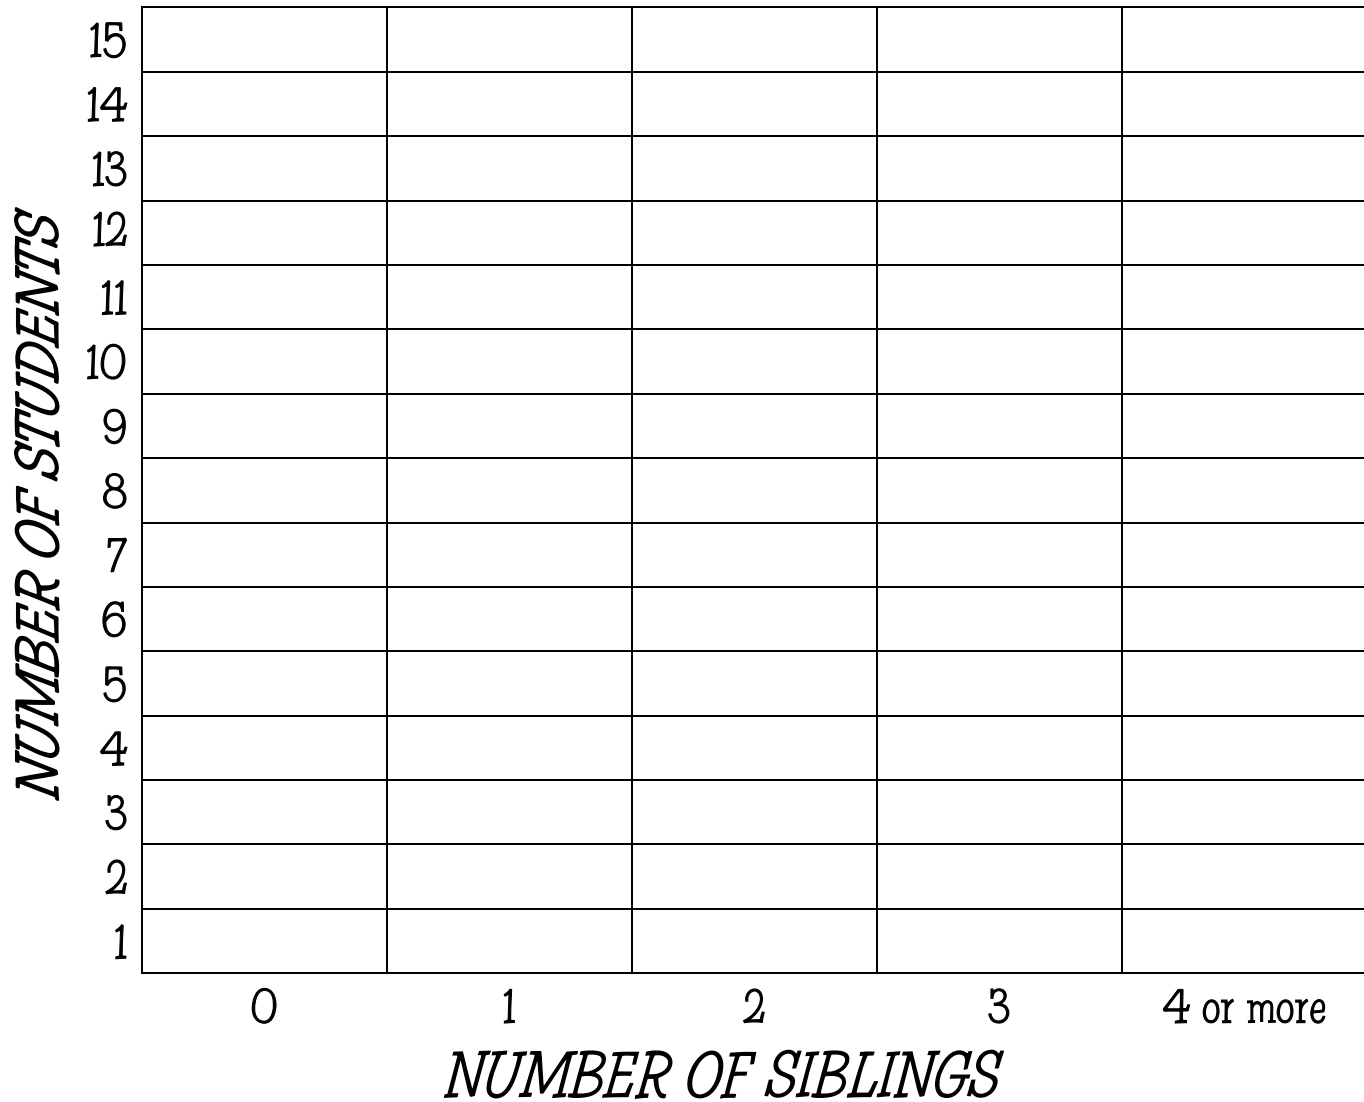

4. After you finish your picture, cut out your square.

5. Listen as your teacher gives directions about filling in the class graph. You will need to take your square and glue it onto the class graph when your teacher calls the number of siblings you have.

As your class fills in the class chart, you should fill in the chart below. When you finish, answer the questions at the bottom of the page.

Brothers and Sisters in Our Class

1. How many students have 2 siblings? _____
2. How many students have no siblings? _____
3. How many students have 2 or 3 siblings? _____
4. If a new student comes to the class and the new student has 5 siblings, how many students will have 4 or more siblings? _____
